

Master of Education in Higher Education

Programme details:

The Master of Education in Higher Education is specifically meant to prepare candidates for teaching, learning, assessment, moderation, management, research, quality assurance and accreditation duties in higher education. The programme facilitates the professional development of teachers, lecturers and trainers as professionals in tertiary education. The programme achieves this by developing their knowledge of higher education as a field of study and enabling them to enhance their ability to facilitate, manage, assess and moderate students' learning. The programme consists of 9 core (required) modules and 3 elective modules. Some modules may have pre-requisites (i.e. may require the student to pass another module or set of modules first). Some modules may be co-requisite (i.e. such modules are required to be taken together). The number at the end of the module in parenthesis indicates the credit load of the module. 1 credit is equal to 10 hours of learning (guided, in-class and independent combined); therefore a 10-credit module requires on average 100 hours of learning from the student.
