

MSc in Information Systems Management

The programme is generally focused on the technical, organizational and management knowledge and skills to qualify them as Information Systems Management professionals. The curriculum is designed to have appropriate modules, both theoretical and practical, at all levels such as the introductory, intermediate, and advanced levels based on the body of knowledge for Information Systems Management. The MSc Information Systems Management programme is designed for the students through a rigorous learning process to prepare professionally trained graduates for the Industry, Education and various avenues which covers an array of contemporary concepts, methods and topics, and hence obtaining useful hands-on expertise essential within the fast-changing environment of Information Systems Management and further affording post graduates an opportunity to pursue related careers or further academic research.

Programme details:

The programme consists of core (required) and elective modules as indicated below. Some modules may have pre-requisites (i.e may require students to pass another module or set of modules first). Some modules may be co-requisite (such modules are required to be taken together). The number at the end of the module in parenthesis indicates the credit load of the module. 1 credit is equal to 10 hours of learning (guided, in-class and independent combined); therefore a 10 credit module requires an average of 100 hours of learning from the student.

Core modules:

- C9-BDM-20: Big Data Management (20)
- C9-SDG-20: System Development Management and Governance(20)
- C9-ISM-20: Information Security Management(20)
- C9-IPM-20: Project Management (20)
- C9-PIM-20: Principles of Information Technology Management (20)
- C9-MIS-20: Management Information Systems (20)
- C9-RPP-20: Research Project 1: Proposal Writing (20)

- C9-DIS-20: Research Project 2: Dissertation (60)

Elective Modules:

Select two from the following

- C9-IFM-20: Infrastructure Management(20)
- C9-ICM-20: ICT Strategic Management (20)
- C9-CMS-20: Content Management Systems (20)
- C9-DAN-20: Data Analytics(20)
- C7-BDT-22: Big Data Technologies(9)
- C7-AAI-22: Advanced Artificial Intelligence (9)

Recommended full-time study path (2

years): The duration of this programme is two years and will be offered in Blended and Distance Learning. During study, students must undergo coursework and dissertation.

Semester 1:

- C9-BDM-20, C9-SDG-20, C9-IFM-20, C9-ICM-20

Semester 2:

- C9-ISM-20, C9-IPM-20, C9-CMS-20, C9-DAN-20

Semester 3:

- C9-PIM-20, C9-MIS-20, C9-RPP-20

Semester 4:

- C9-DIS-20

Admissions Criteria

Entry into this qualification is through any one of the following requirements:

- 1)** The minimum admission requirement is a bachelor's degree Honors in Computing/ Computer Science / Information Technology or any computer related field.
- 2)** A Post-Graduate Diploma (NQCF level 8) in the field of study (Computing) may also meet admission requirements provided that at least 20 credits at level 8 have been allocated to research methodology within or additional to the qualification.

FACULTY OF ENGINEERING AND TECHNOLOGY (CONTINUED)

3) Applicants that do not meet the above criteria but possess relevant industry experience will be considered through recognition of prior learning (RPL).
